T^2B^2 – Perennial Public Health Issues

T^2B^2 (Third Thursday Breakfast Broadcast) is a free video broadcast series on public health issues.

Thursday, October 20, 2005 - 9:00 a.m. – 10:00 a.m.

Health Literacy

Mark Williams, MD

Professor of Medicine, Division of General Medicine, Emory University School of Medicine

Health literacy is the ability to hear or read, comprehend and apply essential health information. It is fundamental to quality care and key to a patient's ability to manage and treat a chronic disease. Health professionals need to consider patients' health literacy when explaining a diagnosis or treatment, and when giving instructions.

Thursday, November 17, 2005 - 9:00 a.m. – 10:00 a.m.

Latino Migrant and Immigrant Health

Janine Jurkowski, PhD, MPH

Assistant Professor, Department of Health Policy, Management & Behavior, University at Albany School of Public Health

Bobbi Ryder

CEO, National Center for Farmworker Health

Latino migrants and immigrants face many challenges in accessing health services. Dr. Jurkowski will discuss health-related issues of Latino immigrants and suggest ways to better serve the health needs of this population. Ms. Ryder will present information on the history of migration to the US from Mexico, and address the health care needs of Latino migrant workers and their families.

Thursday, December 15, 2005 - 9:00 a.m. – 10:00 a.m.

Public Health and the Uninsured

Robert E. Fullilove, EdD

Assoc. Dean, Community and Minority Affairs, Mailman School of Public Health, Columbia University

Nearly 50 million Americans are without health insurance. Dr. Fullilove will focus on the relationship between living without health insurance and the burden placed on public health systems to meet the needs of the uninsured. A history of health care and health insurance will be presented to help viewers better understand "how we got into this mess in the first place."
